

Research Participants Invited!

- ✓ Do you have essential tremor?
- ✓ Do you have difficulty producing voice or speech?
- ✓ Are you between the ages of 18-90 years?

If so, you might qualify to participate in a research study.

The goal of the study is to evaluate a voice therapy program for individuals with vocal tremor.

Participants will complete hearing tests, cognitive tests, and voice recordings while they perform different speaking tasks.

Nasolaryngoscopy may also be performed.

Participation includes up to four assessments lasting up to 4 hours each, 12 voice therapy sessions lasting up to 2 hours each, and home practice lasting up to 1 hour per day. Parking and compensation will be provided.
